

Select Your Caregiver From Our Experienced Staff

There's No Place Like Home!

Sometimes, nursing homes or retirement centers seem like the only options for care. VISITING ANGELS® non-medical home care services allow people to maintain the independence of their daily routines and familiar surroundings. We can help your loved ones avoid the emotional trauma of leaving their cherished home. We believe that you and your family should have a choice about where and how to live, as well as who will provide your care.

You Choose Your Caregiver

At VISITING ANGELS® we know it isn't easy to make the decision to invite a caregiver into your home to provide home care. That's why our personalized screening system is designed to maximize your peace of mind. You'll have the opportunity to interview any caregiver that we refer to you. We let you choose the caregiver you trust.

We Recruit Experience!

You deserve to have a caregiver who is experienced in providing the services that are needed in your home. We don't believe in "on the job training"! Our caregivers have a strong employment history in caring for seniors and have references from reliable sources (previous clients, agencies, health care institutions, religious and volunteer organizations etc.).

Character Counts

VISITING ANGELS® runs a comprehensive background screening on each new caregiver. However, we also emphasize intangible traits such as a caring

personality. When you try our service, you'll be pleasantly surprised to see that at VISITING ANGELS®, character matters!

You Are In Charge

You are in charge of everything. Because we are a non-medical agency and not a nursing agency, VISITING ANGELS® will not dictate to you what your schedule is to be (i.e. what time to wake up, when to bathe, meal schedules etc.). You are the boss. Your schedule is our schedule! It is our job to adjust to your schedule and to keep you comfortable in your home.

You Can Afford The Best

Our philosophy of home care is to never compromise on providing high quality services to your family. Our system allows you to afford a top quality caregiver. At VISITING ANGELS®, we keep our overhead low to avoid passing high costs to you. In addition, we believe that our caregivers should be well paid and treated with respect. For this reason, we can attract and maintain the best quality caregivers available.

We're Proactive To Meet Your Needs

You won't get "lost in the shuffle" with us. Some agencies simply react to calls from clients rather than anticipating your needs in advance. We begin by reviewing your needs through discussions with family members and when necessary, with healthcare providers. Our service coordinator carefully selects the caregiver with the necessary experience and personality that is best suited to the needs of each client. Next, we arrange for the caregiver to visit your home so that you can participate in the selection process. After services begin, we implement our system of ongoing personalized contacts with your family to insure that the care recipient is receiving the best possible care.
